

CARNEX AUTO SALES

Hardcoded Data Reference Guide

Every file containing default, static, or hardcoded data that may need to be changed for a client. Use this document to locate and update any value without searching through the entire codebase.

Column	Meaning
Key / Field	What the variable or field is called
Current Value	The hardcoded value right now (in blue)
Note	Where to find it and what to change

1. Dealership Identity — The most important values to update

```
client/src/constants.js → export const DEALERSHIP = { ... }
```

name	Carnex Auto Sales LLC	Legal business name shown in header, footer, emails
tagline	Excellence in Every Mile	Shown in header top bar
phone	(916) 534-0971	Clickable tel: link in header, footer, contact page
email	carnexautosales@gmail.com	Mailto link in footer & contact page
addressLine1	8193 Elder Creek Road	Street address
addressLine2	Sacramento, CA 95824	City, state, ZIP

■ This single object controls the name, phone, email and address everywhere on the public website (header, footer, about, contact). Change it once — it updates everywhere automatically.

2. Business Hours

```
client/src/constants.js → export const BUSINESS_HOURS = [ ... ]
```

Monday – Friday	9:00 AM – 5:00 PM	Change hours string as needed
Saturday	9:00 AM – 5:00 PM	Change hours string as needed
Sunday	Closed	Set to time range to open on Sundays

Hours appear in the footer, About page, Contact page, and the seeded Settings document in MongoDB. Also update SMTP_FROM in server/.env.

3. Navigation Links

```
client/src/constants.js → export const NAV_LINKS = [ ... ]
```

• Home /	• Inventory /inventory
• Financing /financing	• Trade-In /trade-in
• Test Drive /test-drive	• Sourcing /sourcing
• About /about	• Contact /contact

NAV_LINKS drives the Footer quick-links column only. The Header navigation is defined separately in client/src/components/layout/Header.jsx → const MAIN_NAV = [...]

4. Header Navigation (separate from NAV_LINKS)

```
client/src/components/layout/Header.jsx → const MAIN_NAV = [ ... ]
```

Home	path: "/"	Top-level link
Inventory	path: "/inventory"	Has dropdown: Sedans, SUVs, Trucks, Hatchbacks
Financing	path: "/financing"	Direct link
Trade-In	path: "/trade-in"	Direct link
Test Drive	path: "/test-drive"	Direct link
Sourcing	path: "/sourcing"	Direct link
About	path: "/about"	Direct link
Contact	path: "/contact"	Direct link

```
Inventory dropdown sub-links → children: [ ... ]
```

• All Vehicles /inventory	• Sedans /inventory?bodyType=Sedan
• SUVs /inventory?bodyType=SUV	• Pickup Trucks /inventory?bodyType=Truck
• Hatchbacks /inventory?bodyType=Hatchback	

To add or remove nav items, edit MAIN_NAV in Header.jsx. For dropdown items, edit the children array under Inventory.

5. Home Page Static Content

```
client/src/pages/public/Home.jsx
```

Hero tagline	Sacramento, California • Pre-Owned Vehicles	Small text above the hero title
Hero title	Find your next car at Carnex Auto Sales.	Main H1 on homepage
Hero description	The easiest car buying experience...	Paragraph under hero title

Story paragraph 2	From first-time buyers...	Our Story section — paragraph 2
Story paragraph 3	Located in the heart of Sacramento...	Paragraph 3
CTA banner title	Ready to Find Your Next Car?	Dark CTA banner at bottom
CTA banner body	Browse our latest inventory or get in touch...	CTA banner sub-text

6. About Page Static Content

client/src/pages/public/About.jsx

Page top label	About {DEALERSHIP.name}	Uses constants.js — auto-updates
Hero H1	A modern pre-owned dealership in Sacramento.	Main heading — change city/description
Intro paragraph	Located in the heart of Sacramento, CA...	First paragraph under heading
Approach section title	Our approach to car buying	Left card heading
Approach body 1	We understand that purchasing a vehicle...	Left card first paragraph
Approach body 2	Whether you have excellent credit...	Left card second paragraph
Apart title	What sets Carnex apart	Right card heading
Apart bullet 1	Transparent, no-pressure sales experience.	Edit or add bullets in the list
Apart bullet 2	Curated pre-owned inventory...	Bullet 2
Apart bullet 3	Financing options for a wide range...	Bullet 3
Apart bullet 4	Trade-in values based on current U.S. market...	Bullet 4
Visit us title	Visit us in person	Location card heading
Commitment title	Our commitment to Sacramento drivers	Bottom card heading
Commitment body	Our team lives and works in the Sacramento area...	Bottom card paragraph
Badge 1	Community focused	Bottom of page
Badge 2	Pre-owned specialists	Bottom of page

7. Contact Page

client/src/pages/public/Contact.jsx

Page H1	Contact Carnex Auto Sales	Change to match business name
Page description	Have a question about inventory, financing...?	Sub-heading paragraph
Sidebar title	Dealership details	Right sidebar heading

Contact Form topics → client/src/components/forms/ContactForm.jsx → topicOptions

• General Inquiry	• Inventory
• Financing	• Trade-In
• Service	

To add topics (e.g. "Parts", "Warranty"), edit topicOptions array in ContactForm.jsx AND update the Zod schema enum in the same file.

8. Inventory Page — Filter Options

client/src/pages/public/Inventory.jsx

client/src/components/vehicles/VehicleFilters.jsx

Sort options	Recommended, Price Asc/Desc, Year Desc, Mileage Asc	<code>SORT_OPTIONS</code> array in <code>Inventory.jsx</code>
Make options	Any / Toyota / Honda / Chevrolet / Ford	<code>makeOptions</code> in <code>VehicleFilters.jsx</code> — add real makes
Body options	Any / Sedan / SUV / Truck / Coupe	<code>bodyTypeOptions</code> in <code>VehicleFilters.jsx</code>
Fuel options	Any / Gasoline / Diesel / Hybrid / Electric	<code>fuelOptions</code> in <code>VehicleFilters.jsx</code>
Trans options	Any / Automatic / Manual	<code>transmissionOptions</code> in <code>VehicleFilters.jsx</code>
Year options	2024+ / 2022+ / 2020+ / 2018+	<code>yearOptions</code> in <code>VehicleFilters.jsx</code>
Page size	12 vehicles per page	<code>PAGE_SIZE</code> constant in <code>Inventory.jsx</code>
Page H1	Inventory	Page heading
Page desc	Browse our curated selection...	Sub-heading paragraph

Make options in `Home.jsx` quick-search are SEPARATE from `VehicleFilters.jsx`. Update both if you add new makes.

9. Financing Page & Form Dropdowns

client/src/pages/public/Financing.jsx — page text

Page label	Auto loan financing • Sacramento, California	Small label above H1
Page H1	Apply for financing.	Main heading
Page desc	Complete this secure financing form...	Sub-heading paragraph

client/src/components/forms/FinancingForm.jsx — dropdown options

Phone types	Home / Work / Cell	<code>phoneTypeOptions</code> — add "Mobile" if needed
Residence types	Rent / Own	<code>residenceTypeOptions</code>
Employment status	8 options: Full Time, Part Time, Self-Employed...	<code>employmentStatusOptions</code>
Income intervals	Annually / Monthly / Semi-Monthly / Bi-Weekly / Weekly	<code>incomeIntervalOptions</code>
Loan term options	24 / 36 / 48 / 60 / 72 Months	<code>termOptions</code> — add 84 months if needed
US States list	All 50 states + DC	<code>stateOptions</code> — already complete
Disclaimer text	Alimony, child support...	Legal disclaimer paragraph — review with client attorney
Consent text	I confirm the information provided is accurate...	Checkbox label — review with attorney

10. Test Drive Page & Form

client/src/pages/public/TestDrive.jsx

Page H1	Schedule a test drive.	Main heading
Page desc	Simply complete the form below...	Sub-heading paragraph

client/src/components/forms/TestDriveForm.jsx → timeOptions

• 10:00 AM	• 11:30 AM
• 1:00 PM	• 2:30 PM
• 4:00 PM	

Available times	10:00 AM / 11:30 AM / 1:00 PM / 2:30 PM / 4:00 PM	Edit timeOptions array to match actual slot availability
Consent text	By clicking "Send Request", I consent to be contacted...	Legal consent — review with attorney

11. Trade-In Page & Form

client/src/pages/public/TradeIn.jsx

Page H1	Value your trade-in.	Main heading
Page desc	Tell us about your trade-in...	Sub-heading paragraph

client/src/components/forms/TradeInForm.jsx → conditionOptions

• Excellent	• Good
• Fair	• Needs work

12. Sourcing Page & Form

client/src/pages/public/Sourcing.jsx

Page H1	Vehicle sourcing request.	Main heading
Page desc	We're ready to take the work out of car shopping...	Sub-heading paragraph

client/src/components/forms/SourcingForm.jsx → bodyTypeOptions

• Any	• Sedan
• SUV	• Truck
• Coupe	

13. Vehicle Card & Detail Page — Fallback Values

client/src/components/vehicles/VehicleCard.jsx

Fallback image	pexels.com/photos/170811/pexels-photo-170811.jpeg	Shown when vehicle has no image — replace with own placeholder
Fallback location	Sacramento, CA	Shown when vehicle.location is empty

client/src/components/vehicles/VehicleGallery.jsx

Fallback image	pexels.com/photos/170811/pexels-photo-170811.jpeg	Same placeholder — replace with branded car silhouette
-----------------------	---	--

client/src/pages/public/VehicleDetail.jsx

Price disclaimer	Taxes, registration, and documentation fees are not included. Final out-the-door price will reflect California rates.	Legal text under price — update state name for non-CA dealers
Badge 1	No haggle pricing	Small badge under CTA buttons
Badge 2	Inspected & detailed	Second badge
Related title	You might also like	Section heading for related cars
Related desc	Similar vehicles based on body style...	Sub-heading for related section

14. Payment Calculator Default Values

client/src/components/vehicles/PaymentCalculator.jsx

Default down payment	\$3,000	useState("3000") — change to typical market value
Default APR	6.5%	useState("6.5") — update to current market rate
Default term	60 months	useState("60") — most common US loan term
Badge label	U.S. Buyer Estimate	Badge text in calculator header
Disclaimer text	This simple calculator uses typical U.S. auto loan terms...	Legal disclaimer under results

15. Footer Static Content

client/src/components/layout/Footer.jsx

Tagline	We are here to help you find your next vehicle with a transparent, modern buying experience.	Footer intro paragraph — first column
Hours heading	Business Hours	Middle column heading
Links heading	Quick Links	Right column heading
Copyright year	<code>new Date().getFullYear()</code>	Auto-calculated — no change needed
Copyright text	<code>{DEALERSHIP.name}. All rights reserved.</code>	Auto-uses constants.js name
Tagline footer	Excellence in Every Mile.	From DEALERSHIP.tagline in constants.js
Admin link	Admin Login → <code>/admin/login</code>	Small link in footer — remove for production if desired

16. Email Notification Templates

server/src/services/emailService.js

Email header name	Carnex Auto Sales	<code>emailShell()</code> function — line: Carnex Auto Sales
Email header sub	Admin Notification	Sub-label under header — change to "New Lead" etc.
Footer line 1	Carnex Auto Sales LLC	<code>emailShell()</code> footer — update if name changes
Footer line 2	8193 Elder Creek Road, Sacramento, CA 95824	Physical address in every email footer
Footer line 3	This is an automated notification...	Disclaimer line at bottom of all emails
Contact subject	<code>[Carnex] New Contact Message — {name}</code>	<code>buildContactEmail()</code> subject line
Finance subject	<code>[Carnex] New Financing Application — {name}</code>	<code>buildFinanceEmail()</code> subject line
Trade-In subject	<code>[Carnex] New Trade-In Request — {year} {make} {model}</code>	<code>buildTradeInEmail()</code> subject line
Test Drive subject	<code>[Carnex] New Test Drive Request — {name} on {date}</code>	<code>buildTestDriveEmail()</code> subject line
Sourcing subject	<code>[Carnex] New Sourcing Request — {make} {model}</code>	<code>buildSourcingEmail()</code> subject line
Password reset subject	Carnex Admin — Password Reset	<code>passwordResetController.js</code> — <code>forgotPassword()</code>
Password changed sub	Carnex Admin — Password Changed Successfully	Both <code>passwordResetController.js</code> functions
OTP email subject	<code>{code} — Carnex Admin {purpose} Code</code>	<code>nodemailer.js</code> — <code>sendOTPEmail()</code>
OTP header name	Carnex Auto Sales	<code>nodemailer.js</code> — <code>sendOTPEmail()</code> HTML
OTP footer address	Carnex Auto Sales LLC • 8193 Elder Creek Road...	Bottom of OTP email template

17. Server Environment Variables

server/.env (copy from server/.env.example)

NODE_ENV	development	Change to "production" on live server
PORT	5000	Backend port — change if 5000 is occupied
CLIENT_URL	http://localhost:5173	Frontend URL — update to real domain in production
MONGODB_URI	mongodb+srv://...	MongoDB Atlas connection string
JWT_SECRET	your_jwt_secret_minimum_32_characters	Must be 32+ chars — use a random generator
JWT_EXPIRES_IN	7d	Token lifetime — "1d", "7d", "30d"
MFA_APP_NAME	CarnexAdmin	REMOVED — system now uses Email OTP, not TOTP app
CLOUDINARY_CLOUD_NAME	your_cloud_name	From cloudinary.com dashboard
CLOUDINARY_API_KEY	your_api_key	Cloudinary API key
CLOUDINARY_API_SECRET	your_api_secret	Cloudinary API secret
SMTP_HOST	smtp.gmail.com	For other providers: smtp.sendgrid.net, etc.
SMTP_PORT	587	587 = TLS (recommended), 465 = SSL
SMTP_USER	your@gmail.com	Gmail address used to send all system emails
SMTP_PASS	your_16_char_app_password	Gmail App Password — NOT your login password
SMTP_FROM	Carnex Auto Sales	From: name in emails — change display name here
DEALERSHIP_EMAIL	carnexautosales@gmail.com	Fallback notification recipient if Settings doc empty
IP_HASH_SALT	carnex_salt_2024	Salt for IP hashing in analytics — change to random string

18. Client Environment Variables

client/.env.local (copy from client/.env.example)

VITE_API_URL	http://localhost:5000/api	Backend API base URL — change to https://yourdomain.com/api in production
--------------	---------------------------	---

19. Admin Panel Static Text

client/src/components/layout/AdminLayout.jsx

Sidebar title	Carnex Admin	Top of sidebar — change to client name
Header left	Carnex Auto Sales – Admin	Topbar left text
Header right	Secure area • Authorized staff only	Topbar right text

client/src/pages/admin/AdminLogin.jsx

Page H1	Admin Sign In	Login page heading
Page desc	Enter your credentials. An OTP will be sent to your registered email.	Sub-heading on credentials step
OTP step desc	We sent a 6-digit code to {maskedEmail}...	Description shown when OTP step appears
Resend text	Resend OTP	Link text to resend the code
Submit btn	Verify & Sign In	OTP step button label

client/src/pages/admin/AdminForgotPassword.jsx

Page H1 step 1	Forgot Password	Heading on email entry step
Page H1 step 2	Enter OTP	Heading on OTP entry step
Page desc 1	Enter your admin email. We will send a 6-digit OTP...	Description on step 1
Page desc 2	We sent a 6-digit code to your registered email address.	Description on step 2

client/src/pages/admin/AdminDashboard.jsx

Page H1	Dashboard	Admin dashboard page title
Subtitle	Overview of leads and inventory for Carnex Auto Sales.	Change dealership name here if needed
Section heading	Lead Summary – Last 7 Days	KPI cards section title

20. MongoDB Seeded Data — Update via Admin Settings or re-run scripts

server/scripts/bootstrap.js → Settings collection in MongoDB

dealershipName	Carnex Auto Sales LLC	Update via Admin → Settings page, or re-run bootstrap.js
phone	(916) 534-0971	Update via Admin → Settings page
email	carnexautosales@gmail.com	Notification destination email — Admin → Settings
address	8193 Elder Creek Road, Sacramento, CA 95824	Update via Admin → Settings page
businessHours	Mon-Sat 9AM-5PM, Sun Closed	Array of 7 day objects — Admin → Settings page
notificationEmails	[] empty array	Add emails here to receive lead notifications
maintenanceMode	false	Set true to show maintenance page (not yet implemented)

■ The Settings document in MongoDB can be updated live via the Admin Panel → Settings page without restarting the server. The constants.js values are FRONTEND only and require a rebuild.

21. Analytics & Visitor Tracking Configuration

server/src/middleware/trackVisitor.js & server/src/routes/public/analytics.js

Bot filter list	["googlebot","bingbot","bot","crawler","spider"...]	Add more bot strings to block tracking them
IP hash salt	carnex_salt_2024 (from IP_HASH_SALT env var)	Change to any random string for your deployment
Page name map	/inventory → "Inventory" /about → "About" etc.	resolvePage() function — add new pages here
Data retention	90 days auto-delete via MongoDB TTL index	Change expireAfterSeconds in PageView model index
Refresh interval	30 seconds (auto-refresh toggle)	AdminAnalytics.jsx — setInterval(loadData, 30000)
Recent feed limit	30 visits (default), max 100	api.get("/admin/analytics/recent", {limit: 30})
Bot UA keywords	googlebot, bingbot, bot, crawler, spider, scraper, curl, wget, python	public/analytics.js route — add your own exclusions

client/src/hooks/useAnalytics.js → page title map

• / → Home	• /inventory → Inventory	• /vehicles/:id → Vehicle Detail
• /financing → Financing	• /trade-in → Trade-In	• /test-drive → Test Drive
• /sourcing → Sourcing	• /about → About	• /contact → Contact

22. New Client Quick-Change Checklist

#	File	What to Change
---	------	----------------

1	<code>client/src/constants.js</code>	Update DEALERSHIP object (name, phone, email, address, tagline)
2	<code>client/src/constants.js</code>	Update BUSINESS_HOURS array
3	<code>server/.env</code>	Set SMTP_USER, SMTP_PASS, SMTP_FROM, DEALERSHIP_EMAIL
4	<code>server/.env</code>	Set MONGODB_URI, JWT_SECRET, CLOUDINARY_* credentials
5	<code>client/.env.local</code>	Set VITE_API_URL to production API domain
6	Admin Panel → Settings	Update dealership name, phone, email, address, notification emails
7	<code>client/src/pages/public/Home.jsx</code>	Replace hero image URL with real dealership photo
8	<code>client/src/pages/public/Home.jsx</code>	Replace testimonials with real customer reviews
9	<code>client/src/pages/public/Home.jsx</code>	Update "Our Story" paragraphs
10	<code>client/src/pages/public/About.jsx</code>	Update all text to match client brand voice
11	<code>client/src/components/vehicles/PaymentCalculator.jsx</code>	Adjust default APR to current market rate
12	<code>client/src/components/vehicles/VehicleCard.jsx</code>	Replace fallback placeholder image with branded car image
13	<code>client/src/pages/public/VehicleDetail.jsx</code>	Update price disclaimer for correct state/country
14	<code>server/src/services/emailService.js</code>	Update dealership name and address in all email templates
15	Admin Panel → Settings → Notification Emails	Add real staff email(s) to receive lead notifications

This document was auto-generated from the Carnex codebase. Every section maps directly to a real file and line in the project. When in doubt, search the file listed at the top of each section.
